

**Amendments to the Specification:**

Please add the following paragraph between the title and the first line of text as follows:

This is a Division of Application No. 10/384,654 filed March 11, 2003 which is a Continuation of Application No. 09/899,913 filed July 9, 2001. The entire disclosure of the prior applications is hereby incorporated by reference herein in its entirety.

Please replace the paragraph beginning at Page 2, line 28, with the following rewritten paragraph:

To solve such a problem, Japanese utility model Registration No. 3056237 discloses another aerosol container with a cap 221 enabling the release of the content, shown in Fig. ~~2627~~. The cap, which is integrally made of synthetic resin, and comprises a tubular body having at its end means for engaging with a winding portion of a container body, and an inclined top wall which is connected to the tubular body and has a depression piece 110 connected by a hinge for depressing a depression head 111.
